***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance:

the cited prior art, either singly or in combination, fails to anticipate or render obvious a method for detecting a need for assisting users with input by determining the use of a structure variable which references *nested data* and *skipping* compilation with respect to cursor positioning within a development system.

McFedries, Visual Basic for Applications Unleashed, teaches of assisting with input for source code modules by detecting a user's input requirement through the use of "IntelliSense" technology, but fails to explicitly teach of referencing nested data and disregarding compilation with regards to a cursors position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

2. An inquiry concerning this communication or earlier communications from the examiner should be directed to Kelvin Booker whose telephone number is (703) 308-4088. The examiner can normally be reached on Monday-Friday from 7:00 AM-5:30 PM EST.

Art Unit: 2122
